

YOUR COMPRESSED AIR PARTNER

PREVOST designs, develops, manufactures and markets a complete range of products for the distribution of compressed air: networks with safety fittings, filtration solutions and pneumatic equipment. Thanks to this expertise, Prevost has become the go-to partner for industries using pneumatic energy.

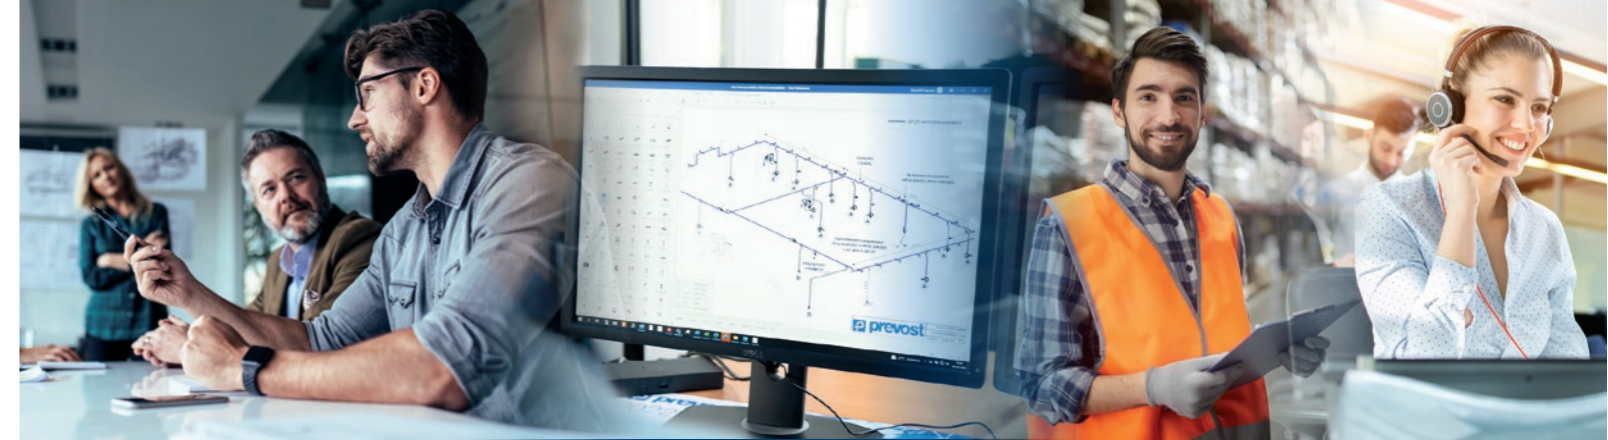

Knowing your needs precisely allows us to offer you solutions adapted.

PREVOST is present in the main markets using compressed air energy:

- **Industry** : maintenance workshops, plastics, textiles, wood, agri-food, etc...
- **Construction** : industrial construction, hardware store, etc.
- **Automotive** : automotive assembly lines, garage equipment, automotive and agricultural parts, etc.

Our products meet multiple quality standards, hygiene requirements, sustainability and performance needs. They are specifically designed to meet the requirements of pressure equipment standards.

→ Quality of **PRODUCTS**

Constant innovation and search for optimization of existing products: we do everything possible to offer you products that are always more efficient and safer.

Quick couplings

PrevoS1 fittings combine technological performance with economic benefits to ensure safe connection and disconnection.

Compressed air network

Our range **Prevost Piping System (PPS)**, Modular concept of 100% aluminium tubes and fittings, optimises compressed air flows from the compressor room to the workstation.

Hoses and extensions

The use of an automatic hose reel is essential in a workshop. Prevost recognizes this requirement and offers a wide selection of heavy-duty, easy-to-use automatic reels.

Compressed air treatment

A high-performance network must be equipped with an efficient compressed air filtration system. Prevost has several lines adapted to compressor rooms and different points of use.

Pneumatic tools

With its range of pneumatic tools, Prevost develops a line of technical products adapted to the requirements of professionals.

→ Quality of **SERVICES**

At PREVOST, service is part of our DNA: on a daily basis, we do everything we can to ensure that you are always connected with our products and to provide you with the most suitable solution for your needs.

Commercial Presence

A vast force of sale is deployed on the ground to bring you expertise. An efficient and available sales administration team offers also a daily support.

Technical Expertise

PREVOST provides you with responsive technical experts, ready to assess the scope of your projects and to design the modeling of your installations.

Prevost Academy

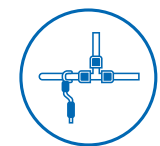

A training program on Prevost products and their applications allows professionals to gain technical expertise on our products to better advise their clients.

Logistics Platform

Strategically located platforms enable delivery to customers anywhere in the world in the shortest possible time.

Customer Service

Our team of experts is always available to respond to your operational issues.

PrevoSt puts its expertise at your service to support you from start to finish in your projects for the installation or adaptation of compressed air network.
